

AZ-900 Objective Checklist

Name: _____

All 57 objectives Microsoft publishes for Exam AZ-900. Bring this to every session.

After each quiz review, mark every objective you were assessed on:

- **C — Confident.** I could explain this to someone else and pick it out of a scenario.
- **S — Shaky.** I recognize it but would not bet on a question about it.
- **B — Blank.** I could not say what this is.

Re-mark objectives as they come back around; the point is the change over time, not the first answer.

Session 11 asks you to rate all of these, and Session 12 builds the gap clinic from what the class marked S and B. **You are ready for the exam when nothing is marked B.**

Taught column: the session where the objective is first taught. It is then practiced, quizzed, and revisited in later sessions.

Domain 1 — Describe cloud concepts (25–30%)

1.1 Describe cloud computing

ID	Objective	Taught	C	S	B
1.1.1	Define cloud computing	S1			
1.1.2	Describe the shared responsibility model	S1			
1.1.3	Define cloud models, including public, private, and hybrid	S1			
1.1.4	Identify appropriate use cases for each cloud model	S1			
1.1.5	Describe the consumption-based model	S1			
1.1.6	Compare cloud pricing models	S2			
1.1.7	Describe serverless	S2			

1.2 Describe the benefits of using cloud services

ID	Objective	Taught	C	S	B
1.2.1	Describe the benefits of high availability and scalability in the cloud	S2			
1.2.2	Describe the benefits of reliability and predictability in the cloud	S2			
1.2.3	Describe the benefits of security and governance in the cloud	S2			
1.2.4	Describe the benefits of manageability in the cloud	S2			

1.3 Describe cloud service types

ID	Objective	Taught	C	S	B
1.3.1	Describe infrastructure as a service (IaaS)	S2			
1.3.2	Describe platform as a service (PaaS)	S2			
1.3.3	Describe software as a service (SaaS)	S2			
1.3.4	Identify appropriate use cases for each cloud service type (IaaS, PaaS, and SaaS)	S2			

Domain 2 — Describe Azure architecture and services (35–40%)

2.1 Describe the core architectural components of Azure

ID	Objective	Taught	C	S	B
2.1.1	Describe Azure regions, region pairs, and sovereign regions	S3			
2.1.2	Describe availability zones	S3			
2.1.3	Describe Azure datacenters	S3			
2.1.4	Describe Azure resources and resource groups	S3			
2.1.5	Describe subscriptions	S3			
2.1.6	Describe management groups	S3			
2.1.7	Describe the hierarchy of resource groups, subscriptions, and management groups	S3			

2.2 Describe Azure compute and networking services

ID	Objective	Taught	C	S	B
2.2.1	Compare compute types, including containers, virtual machines, and functions	S4			
2.2.2	Describe virtual machine options, including Azure virtual machines, Azure Virtual Machine Scale Sets, availability sets, and Azure Virtual Desktop	S4			
2.2.3	Describe the resources required for virtual machines	S4			
2.2.4	Describe application hosting options, including web apps, containers, and virtual machines	S4			
2.2.5	Describe virtual networking, including the purpose of Azure virtual networks, subnets, peering, Azure DNS, Azure VPN Gateway, and ExpressRoute	S5			
2.2.6	Define public and private endpoints	S5			

2.3 Describe Azure storage services

ID	Objective	Taught	C	S	B
2.3.1	Compare Azure Storage services	S6			

ID	Objective	Taught	C	S	B
2.3.2	Describe storage tiers	S6			
2.3.3	Describe redundancy options	S6			
2.3.4	Describe storage account options and storage types	S6			
2.3.5	Identify options for moving files, including AzCopy, Azure Storage Explorer, and Azure File Sync	S6			
2.3.6	Describe migration options, including Azure Migrate and Azure Data Box	S6			

2.4 Describe Azure identity, access, and security

ID	Objective	Taught	C	S	B
2.4.1	Describe directory services in Azure, including Microsoft Entra ID and Microsoft Entra Domain Services	S7			
2.4.2	Describe authentication methods in Azure, including single sign-on (SSO), multifactor authentication (MFA), and passwordless	S7			
2.4.3	Describe external identities in Azure	S7			
2.4.4	Describe Microsoft Entra Conditional Access	S7			
2.4.5	Describe Azure role-based access control (RBAC)	S7			
2.4.6	Describe the concept of Zero Trust	S7			
2.4.7	Describe the purpose of the defense-in-depth model	S7			
2.4.8	Describe the purpose of Microsoft Defender for Cloud	S7			

Domain 3 — Describe Azure management and governance (30–35%)

3.1 Describe cost management in Azure

ID	Objective	Taught	C	S	B
3.1.1	Describe factors that can affect costs in Azure	S8			
3.1.2	Explore the pricing calculator	S8			
3.1.3	Describe cost management capabilities in Azure	S8			
3.1.4	Describe the purpose of tags	S8			

3.2 Describe features and tools in Azure for governance and compliance

ID	Objective	Taught	C	S	B
3.2.1	Describe the purpose of Microsoft Purview in Azure	S9			
3.2.2	Describe the purpose of Azure Policy	S9			

ID	Objective	Taught	C	S	B
3.2.3	Describe the purpose of resource locks	S9			

3.3 Describe features and tools for managing and deploying Azure resources

ID	Objective	Taught	C	S	B
3.3.1	Describe the Azure portal	S10			
3.3.2	Describe Azure Cloud Shell, Azure CLI, and Azure PowerShell	S10			
3.3.3	Describe the purpose of Azure Arc	S10			
3.3.4	Describe infrastructure as code (IaC)	S10			
3.3.5	Describe Azure Resource Manager (ARM) and ARM templates	S10			

3.4 Describe monitoring tools in Azure

ID	Objective	Taught	C	S	B
3.4.1	Describe the purpose of Azure Advisor	S11			
3.4.2	Describe Azure Service Health	S11			
3.4.3	Describe Azure Monitor, including Log Analytics, Azure Monitor alerts, and Azure Monitor Application Insights	S11			

Readiness record

Instrument	Score	Domain 1	Domain 2	Domain 3	Objectives to repair
Domain 1 checkpoint (S3)		—	—	—	
Domain 2 checkpoint (S8)		—	—	—	
Session 11 quiz / Domain 3 checkpoint		—	—	—	
Final readiness set (S12)					
Official practice assessment, attempt 1					
Official practice assessment, attempt 2					

Book the exam when: 85% or better on the final readiness set *and* on a separate attempt at the official practice assessment, no domain below 75%, and nothing on this checklist marked B.

Exam booked for: day ____ of the 10-day window **Confirmation number:**
