

Session 1 Quiz — Cloud Computing Foundations

Name: _____ Session: _____

Time: 15 minutes · **Items:** 12 · **Target:** 80%

Answer every question. For *select all that apply*, mark every correct option. For matching questions, write the matching term next to each numeral. For yes/no sets, write yes or no next to each numeral. Your instructor reviews every answer in class immediately afterward.

1. Which statement best describes cloud computing?

- A. Running virtualization software on servers your organization owns
- B. Delivering computing services such as compute, storage, and networking over the internet
- C. Backing up on-premises data to a second building
- D. Buying servers in bulk to lower the cost per unit

2. Under the shared responsibility model, which items remain your responsibility no matter which cloud service type you use? (Select all that apply.)

- A. The data and information you store in the cloud
- B. The physical hosts running your workloads
- C. The accounts and identities in your environment
- D. The physical network in the datacenter
- E. The devices allowed to connect to your cloud resources

3. Which three items are always the cloud provider's responsibility?

- A. Operating systems, applications, and network controls
- B. The physical datacenter, the physical network, and the physical hosts
- C. Identity and access, data, and devices
- D. Middleware, runtime, and application code

4. You deploy a virtual machine in Azure and install a database on it yourself. Who is responsible for applying database patches?

- A. Microsoft, because the VM runs in Microsoft's datacenter
- B. You, because you installed and manage the software on the VM
- C. Neither party; database patching is automatic in Azure
- D. Microsoft for security patches, you for feature updates

5. Which cloud service type places the most responsibility on the customer?

- A. SaaS
- B. PaaS
- C. IaaS
- D. All three place equal responsibility on the customer

6. An organization runs a cloud environment used only by itself, hosted in its own datacenter. Which cloud model is this?

- A. Public cloud
- B. Private cloud
- C. Hybrid cloud
- D. Multicloud

7. What most clearly distinguishes a public cloud from a private cloud?

- A. A public cloud is always cheaper
- B. A public cloud is available to anyone who wants to purchase the services
- C. A public cloud cannot be used for regulated workloads
- D. A public cloud has no service-level guarantees

8. A retailer keeps its customer database on its own private cloud infrastructure but wants to add public cloud capacity during a seasonal sales spike. Which cloud model does this describe?

- A. Public cloud
- B. Private cloud
- C. Hybrid cloud
- D. Sovereign cloud

9. An organization uses services from two different public cloud providers and manages resources and security in both. What is this arrangement called?

- A. Hybrid cloud
- B. Multicloud
- C. Private cloud
- D. Community cloud

10. A startup has no existing hardware, expects unpredictable growth, and wants to avoid buying servers. Which cloud model is the most appropriate starting point, and why?

- A. Private cloud, because it gives complete control over resources and security
- B. Public cloud, because it requires no capital expenditure to scale up
- C. Hybrid cloud, because it provides the most flexibility
- D. Private cloud, because data is not colocated with other tenants' data

11. In traditional IT budgeting, which term describes up-front spending on physical infrastructure such as servers and datacenter space?

- A. Operational expenditure (OpEx)
- B. Capital expenditure (CapEx)
- C. Consumption-based spending
- D. Total cost of ownership

12. Which statement about the consumption-based model is correct?

- A. You pay a fixed monthly fee regardless of usage
- B. You buy capacity a year in advance to guarantee availability
- C. You pay for the resources you use and can release them when demand drops
- D. You pay only for storage; compute is included

Answer sheet

#	Your answer	#	Your answer
1		7	
2		8	
3		9	
4		10	
5		11	
6		12	

Score: ____ / 12

Objectives to review: _____
